V. NYSED Initiatives Alignment

1. How will the district's use of instructional technology support a comprehensive and sustained effort to improve student performance and academic standards, while also addressing the need to provide equitable learning opportunities “everywhere, all the time” (National Technology Plan)?

The district’s use of instructional technology supports a comprehensive and sustained effort to improve student performance by aligning technology integration with its mission to promote continuous learning, responsible citizenship, and equitable access to educational opportunities. Through ongoing professional development in areas such as artificial intelligence and cybersecurity, teachers will be better equipped to design meaningful, standards-aligned instruction that enhances student engagement, critical thinking, and digital literacy. The expectation that staff demonstrate application of these skills ensures that technology use directly impacts classroom practice and student outcomes. Additionally, the district’s commitment to providing all students and staff with reliable, up-to-date devices and modern instructional tools, such as interactive classroom boards, ensures equitable access to high-quality learning experiences. These resources enable students to engage with content both in and out of the classroom, supporting flexible, personalized learning opportunities “everywhere, all the time.” By maintaining a safe, well-supported digital environment and ensuring consistent access to technology, the district promotes inclusion, reduces barriers to learning, and creates the conditions necessary for all students to meet and exceed academic standards.

2. **At the start of the 2026-27 school year, will the district offer full-time virtual instruction to any students? (*Select all that apply)***

- ☐ Yes. Our district operates a full-time virtual instruction program.
- ☐ Yes. One or more of our students will attend a program operated by a BOCES or another public school district.
- ☑ None of our students will participate in a full-time virtual instruction program.
- ☐ Other

3. If the district files or has filed a Smart Schools Investment Plan (SSIP) to apply for Smart Schools Bond Act funds, all responses in this survey align with the district’s response to any related question(s) in the SSIP.

The district does not have an active SSIP.
